## Yes

We are delighted to welcome you to this timeless location nestled in a green paradise filled with the scent of woodlands and a taste of Renaissance. This is a place where time slows down and life can be put on hold.

Here there is the dreamy combination of an ancient woodland, a period Château, a hamlet of charming cottages, a lake fringed with gorse, vineyards of Romorantin vines and stone-built houses.

We intend this haven of tranquility to be an invitation to relax, reflect and enjoy fine food - a family home which makes you feel good and where you can enjoy a break in natural surroundings where you can unwind and recharge your batteries.
